Sliding Navigation Menu

Dellow themes comes with a Sliding Navigation Bar. You will see a Menu icon on the Top bar of the theme, on the left corner. Clicking the icon once activates, the menu and it slides in the view. Clicking the icon another time, hides the menu by sliding it away.

This navigation menu is only a single level navigation menu, and doesn't support dropdowns. To show menus in hierarchial manner, please use Custom Menu Widgets in the sidebar.

Installing the Theme

Dellow Theme is can be installed directly from your WordPress Dashboard. To install, go to **Appearance > Themes > Install Themes** & search for Dellow. From there you can directly Install and activate the theme. If this method is not available to you, then you can use the downloaded copy of this theme and install manually.

From your hosting's file manager, Navigate to the **/wp-content/themes/** folder, which is present under your wordpress installation. Upload Dellow.zip to this directory and extract it there. Once you have done that, you will be able to see Dellow theme under **Appearance > Themes** from where you can activate it

Another option to install this theme is to directly upload the zip in wordpress dashboard. Go to **Appearance > Themes > Install Themes > Upload** and then upload the dellow.zip file That's it.

Slider

Dellow Theme Comes with a built in Nivo Slider, which eliminates the need of using any external plugins. To set up the slider, all you need to do is go to! **Appearance > Dellow Settings > Slider Settings.**

Check the option “Enable Slider”. This Slider supports up to 5 Images. To show only 3 Slides in the slider, upload only 3 images. Leave the rest Blank. For best results, choose images with width more than 1100px.

The transition effects will be smoother if, all the images are of same dimension.

Slider is responsive. It will adjust its width/height automatically depending on the screen size.

Parallax Header

To set up the Parallax Header, all you need to do is go to **Appearance > Header**, and upload an image of dimension 1920x1080px. If you do not have an image of that dimension, then do not worry. Upload the image you have, and WordPress will open a screen which will allow you to crop the image to those dimensions with ease.

Full Width Page

To create a page without a sidebar. Go to Create Page, and change its template to Full Width.

Homepage Layouts

Dellow Supports 3 Layout styles for blog pages.

- 1 Column
- 2 Column - Right sidebar
- 2 Column - Left sidebar

These layouts can be selected from from **Appearance > Dellow Settings > Layout Settings**
